Jasper, Our Little Mate

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

Those big brown eyes, so full of grace
They followed us in every place
A soft coated wheaten, with a happy face
In our family, you found your space
You loved your sisters, Poppie and Indie too
A bond of pure love, shining through
On every walk, our world felt new
Your gentle spirit, strong and true

Chorus

Oh, Jasper, our little mate so true
For six short years, we walked with you
A love like yours, forever new
In every memory, shining through

Verse 2

The joyful bark when we came home at night
A happy sigh, a comforting light
On Ute rides, you sat with all your might
Basking in the sun, so pure and bright
In bed beside us, soft and warm
You weathered every single storm
A special presence, from dusk till morn
A loving nature, beautifully born

Chorus

Oh, Jasper, our little mate so true
For six short years, we walked with you
A love like yours, forever new
In every memory, shining through

Bridge

Jasper, Our Little Mate (continued)

We whisper now, "Our little mate"
"We love and miss you, it's not too late"
You run with Dawson, Kilo, at the gate
We know we'll see you, sealed by fate
"Love you Jelly Bean!" our hearts all cry
Beneath the vast and endless sky

Instrumental - harmonica, acoustic guitar

Final Chorus

Oh, Jasper, our little mate so true
For six short years, we walked with you
A love like yours, forever new
In every memory, shining through

Outro - acoustic guitar fade

Now running free, beyond the sun
Your watchful gaze, your work is done
Our loving Jelly Bean, number one
Until our journey, too, is run.

Forever in our hearts
