Boss, My Good Old Friend

A Tribute Song

Intro - Acoustic guitar

Verse 1

My first sight of you, a loyal heart so true
A Border Collie's grace, with purpose in your face
You never strayed too far, my guiding, perfect star
Always knew just what to do, my perfect, loyal view

Chorus

Oh, Boss, my good old friend, until the very end
Twelve years we shared our way, through every single day
You taught me how to see, what true love means to me
My faithful, loyal soul, you made my spirit whole

Verse 2

I loved watching you eat, those simple, happy treats
Your nose down in the bowl, a joy that filled my soul
Such a pure delight, a simple, precious sight
No worries, just content, a gift that heaven sent

Chorus

Oh, Boss, my good old friend, until the very end
Twelve years we shared our way, through every single day
You taught me how to see, what true love means to me
My faithful, loyal soul, you made my spirit whole

Verse 3

Through changing seasons' sway, you brightened every day
Your steadfast, loving gaze, lit up my darker days
You knew my every thought, the lessons that you taught
A bond that couldn't cease, bringing my soul such peace.

Chorus

Oh, Boss, my good old friend, until the very end

Boss, My Good Old Friend (continued)

Twelve years we shared our way, through every single day
You taught me how to see, what true love means to me
My faithful, loyal soul, you made my spirit whole

Bridge

Thank you for always loving me, even when I didn't deserve it
Your gentle, patient heart, played such a vital part
A love so deep and wide, always by my side
A silent promise, kept within your gaze
My truest, dearest friend, until the very end

Now you're in peaceful sleep, no promises to keep
Cuddling close to Harley, safe and warm you tarry
Run free beyond the sun, your gentle race is run
